

North West Ambulance Service

The Challenge

We partnered with Imtech Engineering Services to deliver LED lighting to 14 ambulance stations. This was phase 1, part of a project supplying 108 stations

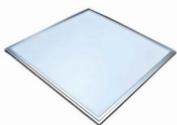

The Solution

As part of the North West Ambulance Service Carbon Reduction Scheme, we considered all energy-reduction solutions with a view to implementing complete LED refits in stations such as Broughton HQ, Manchester Central, Manchester Heart, Bolton, Rochdale and Warrington, with many more to come.

Products Used

Lucid 60

50w Linear

PRO 80 Flood

Opal 2LED

The Results - Broughton Ambulance Head Quarters

After surveying all the ambulance centres in Phase 1, we proposed savings and luminaires to the client for each site, as each had different operational services.

Services Used

- ✓ **Consultancy and Strategy** - Allied surveyed 14 ambulance stations, identifying a suitable replacement for current luminaires.
- ✓ **Lighting Report and Visual Design** - We provided luminaire schedules and cost-saving calculations.
- ✓ **Finance Modelling** - Where needed, we provided full lighting and CAD design.
- ✓ **Luminaire Supply** - Self-funded by the client.
- ✓ **Install and Recycle** - We worked alongside Imtech and recycled all the discussed luminaires from site.
- ✓ **Lighting and Maintenance Warranty** - As with all Allied products, the customer received peace of mind with our five-year product warranty.

Customer Feedback

Allied have provided us with a large number of light fittings for energy reduction projects. They have always been responsive to our requests, providing site surveys, proposals and answering technical questions in a timely manner. We have experienced some issues with the energy saving calculations, however, they have worked closely with us to resolve these issues so we can move forward confidently with the energy data they provide to us. The LED lighting products they provide to us are excellent, I have no hesitation to continue using them for our LED replacement works. Allied provide us with superb customer service, while their products deliver great performance at a competitive price.
