

Scarlets Rugby Club

The Challenge

An independent energy-reduction company approached us to look at all the lighting for Parc Y Scarlets rugby stadium and training facilities, working alongside other energy-efficient technologies.

The Solution

It was important to identify the areas and the lamps that would provide maximum savings to present a viable scheme for the club.

Products Used

Skylight

Linear

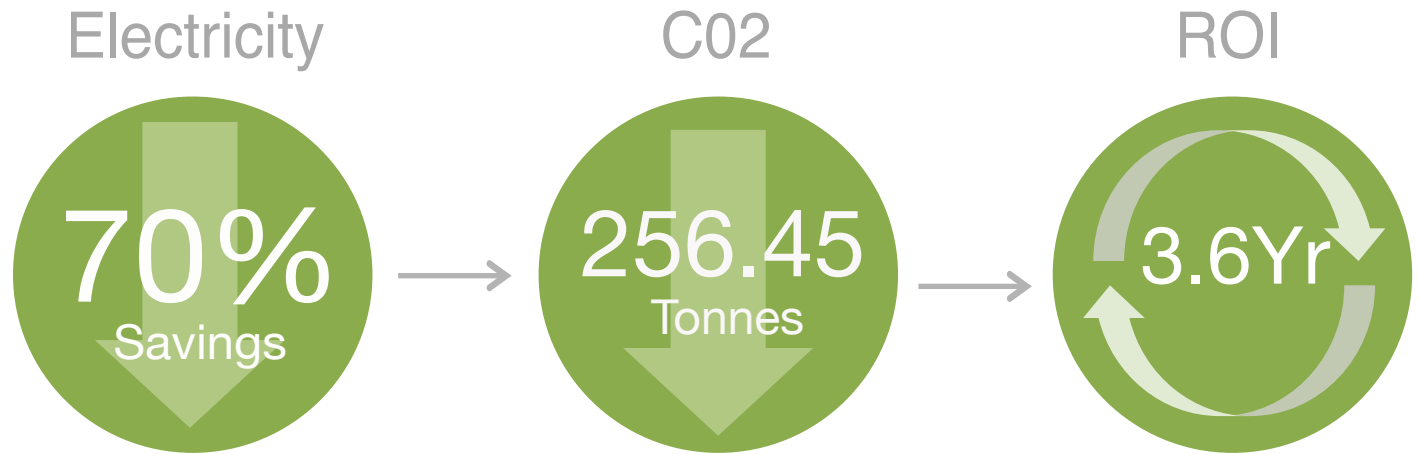

Angel 2LED

Arc Panel

The Results

After a complete lighting survey of the stadium and training facilities, we broke the project down into a number of schemes. Primarily, we identified the high energy-consumption areas, allowing the client to achieve large savings immediately that would fund the next scheme.

Services Used

- ✓ **Consultancy and Strategy** - Working alongside a third-party energy-reduction company, we devised a strategy to maximise savings and make the project viable
- ✓ **Lighting Report and Visual Design** - We used a full lighting design to reduce fittings where possible.
- ✓ **Finance Modelling** - We agreed a funding scheme with the client through its own savings.
- ✓ **Luminaire Supply** - We used our extensive range to provide a solution to a number of different areas.
- ✓ **Install and Recycle** - Allied provided a complete install package.
- ✓ **Lighting Maintenance and Warranty** - As with all Allied products, the customer received peace of mind with our five-year product warranty.
